#### A MESSAGE FROM THE CHAIRMAN

The Depository Library Program was created by the Congress in order to promote the American public's awareness of the activities of their government. Under this program, nearly 1,400 libraries distributed throughout our country receive Federal Government publications free of charge, and in return pledge to provide free access to all library patrons. The Joint Committee on Printing enthusiastically supports this program and encourages all citizens to avail themselves of this valuable resource.

This publication is issued as an aid to the use of Depository Libraries. On behalf of the members of the Joint Committee, I hope that you will find it helpful in your search for information on the activities of the Federal Government.

FRANK ANNUNZIO,  
*Chairman,  
Joint Committee on Printing.*

# GOVERNMENT DEPOSITORY LIBRARIES

## Section I.—Overview

### AUTHORIZATION

To help fulfill its responsibility to inform the public on the policies and programs of the Federal Government, Congress established the Depository Library Program. This program is based upon three principles: 1) with certain specified exceptions, all government publications shall be made available to depository libraries; 2) depository libraries shall be located in each State and congressional district in order to make government publications widely available; and 3) these government publications shall be available for the free use of the general public.

Chapter 19 of title 44 of the U.S. Code is the authority for the establishment and operation of the depository program. Pertinent sections of title 44 and the U.S. Statutes at Large affecting this program are reprinted in Section V of this publication.

In several instances, there are three or more de-

pository libraries in the same congressional district, all designated by Representatives, due to re-districting after each decennial census. As of October 1988, 1,394 libraries have accepted designation as depositories.

Before an additional depository may be designated in a congressional district or Puerto Rico by a Representative or the Resident Commissioner, a certified statement justifying the need for an additional depository must be provided by the head of the library to be designated. This justification must be signed by the head of every existing depository within the congressional district or Puerto Rico, or by the head of the library authority of the State or Puerto Rico. A similar justification is required in the case of a senatorial designation when the Senator or his predecessor has already designated an existing depository.

### TYPES OF LIBRARIES DESIGNATED

The provisions of title 44 provide authorization for the following libraries to be designated as depositories:

|  |     |
|--|-----|
| 2 libraries for each congressional district to be designated by the Representative from that district (or at large in the case of undistricted States) ..... | 870 |
| 2 libraries to be designated in any part of the State by each Senator .....  | 200 |
| 2 libraries to be designated by the Resident Commissioner from Puerto Rico .....   | 2   |
| 2 libraries to be designated by the Mayor of the District of Columbia .....  | 2   |
| 1 library to be designated by the Governor of American Samoa .....   | 1   |
| 1 library to be designated by the Governor of Guam .....   | 1   |
| 2 libraries to be designated by the Governor of the Virgin Islands (1 on the island of St. Thomas and 1 on the island of St. Croix) .....                    | 2   |
| Highest State Appellate Court Libraries .....  | 55  |
| State Libraries .....  | 50  |
| Libraries of the land-grant colleges .....   | 72  |
| Libraries of the executive departments in Washington .....   | 13  |
| Libraries of the independent agencies and of major bureaus and divisions of departments and agencies .....   | 125 |
| Libraries of the U.S. Air Force, Coast Guard, Merchant Marine, Military, and Naval Academies .....   | 5   |
| Law School Libraries .....   | 175 |

In addition, the following libraries were designated by special legislation:

|   |   |
|---|---|
| American Antiquarian Society Library, Worcester, Mass. .... | 1 |
| The Public Library of the District of Columbia .....        | 1 |

## REGIONAL DEPOSITORIES

The 1962 amendments to the law provided for the designation of not more than two libraries in each State and the Commonwealth of Puerto Rico to be regional depositories. Such designations may be made by the Senators from the States and the Resident Commissioner of Puerto Rico.

Libraries designated to be regional depositories must already be designated depositories.

Designation as a regional depository requires prior approval of the head of the library authority of the State or the Commonwealth of Puerto Rico.

Regionals assume the responsibility of retaining depository material permanently and of providing inter-library loan and reference service in the region served. Regionals also provide assistance to selective depositories in the disposal of unwanted material. Regionals are encouraged to add the unwanted material to their own collections so citizens will be able to access a copy of all Federal publications in the libraries in their own region.

### DISCONTINUANCE OF DEPOSITORY DESIGNATION

Once a library has been designated a depository, it cannot be dropped from the program and another library designated in its place upon the election of a new Member of Congress. It remains a depository until it ceases to exist or vacates the privilege at its own request (sec. 5, Sundry Civil Act, approved June 23, 1913, 38 Stat. 75, as amended). It can, however be removed from depository status by the Superintendent of Documents for failure to abide by the laws governing the depository program (44 U.S.C. 1910, Oct. 22, 1968, 82 Stat. 1286).

### GOVERNMENT PUBLICATION SELECTION PROCEDURES

Depository libraries are authorized to receive "Government publications except those determined by their issuing components to be required for official use only, or for strictly administrative or operational purposes which have no public interest or educational value, and publications classified for reasons of national security." Section 1903 of title 44 provides exemptions for "so called cooperative publications which must necessarily be sold in order to be self-sustaining." These are primarily certain publications of the Library of Congress and the National Technical Information Service.

A list of the series and groups of Government publications available for distribution is furnished to all depositories for their use in making selections. This list of classes is revised as new series are published by existing agencies, or new agencies are established in order to permit depositories to select from the new material. A library number is assigned to each library by the Superintendent of Documents at the Government Printing Office so that the selecting library will receive the publications chosen.

Publications are supplied to libraries in both paper and microform formats. The possibility of

supplying information in electronic format is being explored by the Joint Committee on Printing.

The annual appropriations act for the Government Printing Office beginning with July 1, 1922, provides that no part of the sum appropriated shall be used to supply depository libraries with any publications not requested by such libraries, and that such request must be made in advance of printing.

### DISPOSAL OF GOVERNMENT PUBLICATIONS BY DEPOSITORIES

The law requires that the publications received by the depository libraries be retained permanently. "Depository libraries not served by a regional depository library, or that are regional depository libraries themselves shall retain Government publications permanently in either printed form or in microfacsimile form, except superseded publications or those issued later in bound form which may be discarded as authorized by the Superintendent of Documents."

Libraries served by a regional depository may withdraw from circulation publications retained for a period of at least five years after securing permission from the regional library and after "offering them to other depository libraries within their area and then to other libraries".

Depository libraries within executive departments and independent agencies of the Federal Government are authorized to dispose of unwanted Government publications after first offering them to the Library of Congress and the National Archives.

Depository libraries at State Appellate Courts may dispose of unwanted Government publications after offering them to the designated regional depository. If the State is not served by a designated regional depository, publications should be offered to the State Librarian.

### HISTORY OF EARLY LEGISLATION

Before the establishment of designated depositories, or any systematic methods for the distribution of public documents, special acts were passed at various times providing for the printing of a sufficient number of copies of the public journals of the Senate and House of Representatives for distribution to the executives of the several States and each branch of the State and territorial legislatures. Provision was also made at times for supplying these journals, the acts, and sometimes the documents and reports, to each university and college incorporated in each State, as well as to the incorporated historical societies throughout the country.

During the 13th Congress, second session, December 27, 1813, a resolution was adopted embodying these provisions which had previously been covered by special legislation. The resolution provided for the distribution of the 13th Congress documents, as well as for "every future Congress". The printing of documents for public distribution was limited to 200 copies over the "usual" number,

and of course this was more than sufficient for the needs of that early day.

By joint resolutions approved July 20, 1840, and April 30, 1844, the number of copies of journals and documents printed was increased.

A resolution of January 28, 1857, as amended by resolution of March 20, 1858, set up the framework of the present depository library system. By these provisions, the journals and documents which up to that time were deposited in the Library of Congress for distribution by the Librarian, and 250 copies of those delivered to the Department of State for distribution by that Department to colleges and other literary institutions, were transferred to the jurisdiction of the Secretary of the Interior "for distribution to such colleges, public libraries, atheneums, literary and scientific institutions, and boards of trade or public associations as may be designated to him by the Representative in Congress from each congressional district and by the Delegate from each Territory in the United States."

The following February, at the second session, 35th Congress (Feb. 5, 1859), an act was passed providing for "keeping, and distributing all public documents" (11 Stat. 379). This act charged the Secretary of the Interior with "receiving, arranging, safekeeping, and distribution" of public documents "of every nature," already or hereafter directed by law to be printed or purchased for the use of the Government, "except such as are for the special use of Congress or the executive departments." It also empowered him to remove from the Congressional Library and other places all accumulations of books, journals, etc., and appropriated \$22,000 for the purpose. He was directed by the act to keep accurate statistics of the receipt and distribution of all books.

Section 5 of this act further amended the resolution of January 28, 1857, by providing for the des-

ignation of a library by each of the Senators, and directing that the distribution should be made first to such States as had not yet been covered by distribution, and that in the future the distribution should be kept equal in each congressional district and territory.

All books, maps, charts, etc., heretofore deposited in the Department of State were also turned over to the Secretary of the Interior.

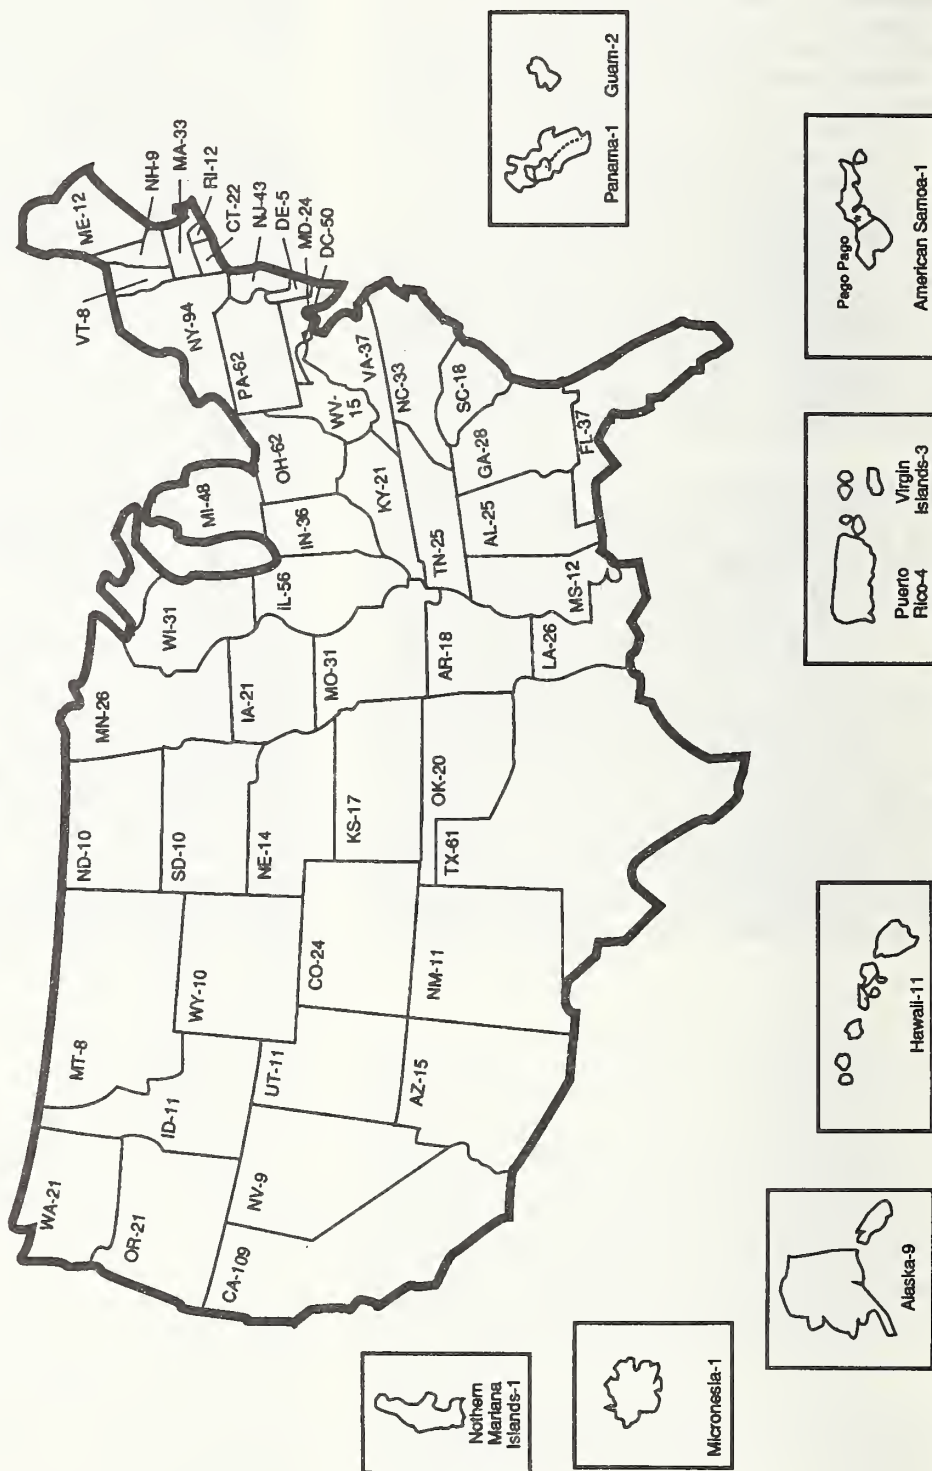

On March 2, 1861, "An Act providing for keeping and distributing all Public Documents, and for other purposes" was passed. The first section of the 1861 law gave the Secretary of the Interior the right to decide which libraries would receive documents when there were insufficient copies for all libraries designated by Members of Congress.

This law also provided that libraries receiving documents from the 2nd session of the 35th Congress would be the same ones which received documents from the 1st session. The law continued "and in all cases hereafter the selection of an institution to receive the documents ordered to be published or procured at the first session of any Congress shall control the documents of the entire Congress, unless another designation be made before any distribution has taken place under the selection first made."

Upon the basis of these acts, the Revised Statutes were compiled, and chapter 7, sections 497 to 511, pages 82 to 85, contain all operative provisions reenacted at that time and superseding all former enactments.

No legislation can be found prior to that contained in the General Printing Act of January 12, 1895, affecting the State and territorial libraries, and it is thought that it became customary to send documents regularly to these libraries, under the discretionary powers vested in the Secretary of the Interior. This would account for their appearance on the depository list many years prior to 1895.

# Your Source for Government Information U.S. Depository Libraries

## Section II.—List of Depository Libraries by State, City, and Congressional District as of October 1988

Abbreviations used: Rep. des.—Representative's designation  
Sen. des.—Senator's designation  
CD—Congressional district

[NOTE.—The terms of office of Senators are divided into three classes—Class I, Class II, and Class III. Approximately one-third of the Senators is in each class depending on when their term of office expires as given in the Table of Senators, sections 800 to 899 of the Senate Manual. The present law limits the number of depository designations for the Senators of either class in a State to two.

Senator and Representative vacancies within the States are listed at the end of the State listing. The numbers to the right of the library addresses are Depository Library identification numbers.

The date which immediately follows the library designations is the year in which the library became a Depository Library. Where our records do not indicate when a library became a depository, a question mark (?) appears instead of the date.]

## Section V.—Laws in Force Relating to Government Depository Libraries and Distribution, Binding, and Indexing of Public Documents

(Extract From Public Law 90-620)

90TH CONGRESS, H.R. 18612

October 22, 1968

To enact title 44, United States Code, "Public Printing and Documents," codifying the general and permanent laws relating to public printing and documents.

\* \* \* \*

### Chapter 19—DEPOSITORY LIBRARY PROGRAM

\* \* \* \*

#### § 1901. Definition of government publication

"Government publication" as used in this chapter, means informational matter which is published as an individual document at Government expense, or as required by law.

#### § 1902. Availability of Government publications through Superintendent of Documents; lists of publications not ordered from Government Printing Office

Government publications, except those determined by their issuing components to be required for official use only for strictly administrative or operational purposes which have no public interest or educational value and publications classified for reasons of national security, shall be made available to depository libraries through the facilities of the Superintendent of Documents for public information. Each component of the Government shall furnish the Superintendent of Documents a list of such publications it issued during the previous month, that were obtained from sources other than the Government Printing Office.

#### § 1903. Distribution of publications to depositories; notice to Government components; cost of printing and binding

Upon request of the Superintendent of Documents, components of the Government ordering the printing of publications shall either increase or decrease the number of copies of publications furnished for distribution to designated depository libraries and State libraries so that the number of copies delivered to the Superintendent of Documents is equal to the number of libraries on the list. The number thus delivered may not be restricted by any statutory limitation in force on August 9, 1962. Copies of publications furnished the Superintendent of Documents for distribution to designated depository libraries shall include—

the journals of the Senate and House of Representatives; all publications, not confidential in character, printed upon the requisition of a congressional committee; Senate and House public bills and resolutions; and reports on private bills, concurrent or simple resolutions; but not so-called cooperative publications which must necessarily be sold in order to be self-sustaining.

The Superintendent of Documents shall currently inform the components of the Government ordering printing of publications as to the number of copies of their publications required

for distribution to depository libraries. The cost of printing and binding those publications distributed to depository libraries obtained elsewhere than from the Government Printing Office, shall be borne by components of the Government responsible for their issuance; those requisitioned from the Government Printing Office shall be charged to appropriations provided the Superintendent of Documents for that purpose.

#### § 1904. Classified list of Government publications for selection by depositories

The Superintendent of Documents shall currently issue a classified list of Government publications in suitable form, containing annotations of contents and listed by item identification numbers to facilitate the selection of only those publications needed by depository libraries. The selected publications shall be distributed to depository libraries in accordance with regulations of the Superintendent of Documents, as long as they fulfill the conditions provided by law.

#### § 1905. Distribution to depositories; designation of additional libraries; justification; authorization for certain designations

The Government publications selected from lists prepared by the Superintendent of Documents, and when requested from him, shall be distributed to depository libraries specifically designated by law and to libraries designated by Senators, Representatives, and the Resident Commissioner from Puerto Rico, by the Commissioner of the District of Columbia, and by the Governors of Guam, American Samoa, and the Virgin Islands, respectively. Additional libraries within areas served by Representatives or the Resident Commissioner from Puerto Rico, may be designated by them to receive Government publications to the extent that the total number of libraries designated by them does not exceed two within each area. Not more than two additional libraries within a State may be designated by each Senator from the State. Before an additional library within a State, congressional district or the Commonwealth of Puerto Rico is designated as a depository for Government publications, the head of that library shall furnish his Senator, Representative, or the Resident Commissioner from Puerto Rico, as the case may be, with justification of the necessity for the additional designation. The justification, which shall also include a certification as to the need for the additional depository library designation, shall be signed by the head of every existing depository library within the congressional district or the Commonwealth of Puerto Rico or by the head of the library authority of the State or the Commonwealth of Puerto Rico, within which the additional depository library is to be located. The justification for additional depository library designations shall be transmitted to the Superintendent of Documents by the Senator, Representative, or the Resident Commissioner from Puerto Rico, as the case may be. The Commissioner of the District of Columbia may designate two depository libraries in the District

of Columbia, the Governor of Guam and the Governor of American Samoa may each designate one depository library in Guam and American Samoa, respectively, and the Governor of the Virgin Islands may designate one depository library on the island of Saint Thomas and one on the island of Saint Croix.

**§ 1906. Land-grant colleges constituted depositories**

Land-grant colleges are constituted depositories to receive Government publications subject to the depository laws.

**§ 1907. Libraries of executive departments, service academies, and independent agencies constituted depositories; certifications of need; disposal of unwanted publications**

The libraries of the executive departments, of the United States Military Academy, of the United States Naval Academy, of the United States Air Force Academy, of the United States Coast Guard Academy, and of the United States Merchant Marine Academy are designated depositories of Government publications. A depository library within each independent agency may be designated upon certification of need by the head of the independent agency to the Superintendent of Documents. Additional depository libraries within executive departments and independent agencies may be designated to receive Government publications to the extent that the number so designated does not exceed the number of major bureaus or divisions of the departments and independent agencies. These designations may be made only after certification by the head of each executive department or independent agency to the Superintendent of Documents as to the justifiable need for additional depository libraries. Depository libraries within executive departments and independent agencies may dispose of unwanted Government publications after first offering them to the Library of Congress and the Archivist of the United States.

**§ 1908. American Antiquarian Society to receive certain publications**

One copy of the public journals of the Senate and the House of Representatives, and of the documents published under the orders of the Senate and House of Representatives, respectively, shall be transmitted to the Executive of the Commonwealth of Massachusetts for the use and benefit of the American Antiquarian Society of the Commonwealth.

**§ 1909. Requirements of depository libraries; reports on conditions; investigations; termination; replacement**

Only a library able to provide custody and service for depository materials and located in an area where it can best serve the public need, and within an area not already adequately served by existing depository libraries may be designated by Senators, Representatives, the Resident Commissioner from Puerto Rico, the Commissioner of the District of Columbia, or the Governors of Guam, American Samoa, or the Virgin Islands as a depository of Government publications. The designated depository libraries shall report to the Superintendent of Documents at least every two years concerning their condition.

The Superintendent of Documents shall make firsthand investigation of conditions for which need is indicated and include the results of investigations in his annual report. When he ascertains that the number of books in a depository library is below ten thousand, other than Government publications, or it has ceased to be maintained so as to be accessible to the public, or that the Government publications which have been furnished the library have not been properly maintained, he shall delete the library from the list of depository libraries if the library fails to correct the unsatisfactory conditions within six months. The Representative or the Resident Commissioner from Puerto Rico in whose area the library is located or the Senator who made the designation, or a successor of the Senator, and, in the case of a library in the District of Columbia, the Commissioner of the District of Columbia, and, in the case of a library in Guam, American Samoa, or the Virgin Islands, the Governor shall be notified and shall then be authorized to designate another library within the area served by him, which shall meet the conditions herein required, but which may not be in excess of the number of depository libraries authorized by law within the State, district, territory, or the Commonwealth of Puerto Rico, as the case may be.

**§ 1910. Designations of replacement depositories; limitations on numbers; conditions**

The designation of a library to replace a depository library, other than a depository library specifically designated by law, may be made only within the limitations on total numbers specified by section 1905 of this title, and only when the library to be replaced ceases to exist, or when the library voluntarily relinquishes its depository status, or when the Superintendent of Documents determines that it no longer fulfills the conditions provided by law for depository libraries.

**§ 1911. Free use of Government publications in depositories; disposal of unwanted publications**

Depository libraries shall make Government publications available for the free use of the general public, and may dispose of them after retention for five years under section 1912 of this title, if the depository library is served by a regional depository library. Depository libraries not served by a regional depository library, or that are regional depository libraries themselves, shall retain Government publications permanently in either printed form or in microfacsimile form, except superseded publications or those issued later in bound form which may be discarded as authorized by the Superintendent of Documents.

**§ 1912. Regional depositories; designations; functions; disposal of publications**

Not more than two depository libraries in each State and the Commonwealth of Puerto Rico may be designated as regional depositories, and shall receive from the Superintendent of Documents copies of all new and revised Government publications authorized for distribution to depository libraries. Designation of regional depository libraries may be made by a Senator or the Resident Commissioner from Puerto Rico within the areas served by them, after approval by the head of the library authority of the State or the Commonwealth of Puerto Rico, as the case may be, who shall first ascertain from the head of the library to be so designated that the library will, in addition to fulfilling the requirements for depository libraries, retain at least one copy of all Government publications either in printed or microfacsimile form (except those authorized to be discarded by the Superintendent of Documents); and within the region served will provide interlibrary loan, reference service, and assistance for depository libraries in the disposal of unwanted Government publications. The agreement to function as a regional depository library shall be transmitted to the Superintendent of Documents by the Senator or the Resident Commissioner from Puerto Rico when the designation is made.

The libraries designated as regional depositories may permit depository libraries, within the areas served by them, to dispose of Government publications which they have retained for five years after first offering them to other depository libraries within their area, then to other libraries.

**§ 1913. Appropriations for supplying depository libraries; restriction**

Appropriations available for the Office of Superintendent of Documents may not be used to supply depository libraries documents, books, or other printed matter not requested by them, and their requests shall be subject to approval by the Superintendent of Documents.

**§ 1914. Implementation of depository library program by Public Printer**

The Public Printer, with the approval of the Joint Committee on Printing, as provided by section 103 of this title, may use any measure he considers necessary for the economical and practical implementation of this chapter.

**§ 1915. Highest State appellate court libraries as depository libraries**

Upon the request of the highest appellate court of a State, the Public Printer is authorized to designate the library of that court as a depository library. The provisions of section 1911 of this title shall not apply to any library so designated.

(Added Pub. L. 92-368, August 10, 1972, 86 Stat. 507.)

**§ 1916. Designation of libraries of accredited law schools as depository libraries**

(a) Upon the request of any accredited law school, the Public Printer shall designate the library of such law school as a de-

pository library. The Public Printer may not make such designation unless he determines that the library involved meets the requirements of this chapter, other than those requirements of the first undesignated paragraph of section 1909 of this title which relate to the location of such library.

(b) For purposes of this section, the term "accredited law school" means any law school which is accredited by a nationally recognized accrediting agency or association approved by the Commissioner of Education for such purpose or accredited by the highest appellate court of the State in which the law school is located.

(Added Pub. L. 95-261, April 17, 1978, 92 Stat. 199.)

## DISTRICT OF COLUMBIA PUBLIC LIBRARY LAW

Chapter 243. An Act to designate the Public Library of the District of Columbia a public depository for governmental publications.—*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That the Public Library of the District of Columbia is hereby constituted a designated depository of government publications and the Superintendent of Documents shall supply to such library one copy of each such publication in the same form as supplied to other designated depositories.

(Added Pub. L. 78-153, September 28, 1943, 57 Stat. 568.)

## Chapter 7—CONGRESSIONAL PRINTING AND BINDING

§ 701. "Usual number" of documents and reports; distribution of House and Senate documents and reports; binding; reports on private bills; number of copies printed; distribution

\* \* \* \* \*

(c) Of the number printed, the Public Printer shall bind a sufficient number of copies for distribution as follows:

Of the House documents and reports, bound—to the Senate library, fifteen copies; to the Library of Congress, not to exceed one hundred and fifty copies, as provided by section 1718 of this title; to the House of Representatives library, fifteen copies; to the Superintendent of Documents, as many copies as are required for distribution to the State libraries and designated depositories.

Of the Senate documents and reports, bound—to the Senate library, fifteen copies, to the Library of Congress, copies as provided by sections 1718 and 1719 of this title; to the House of Representatives library, fifteen copies; to the Superintendent of Documents, as many copies as may be required for distribution to State libraries and designated depositories. In binding documents the Public Printer shall give precedence to those that are to be distributed to libraries and to designated depositories. But a State that may prefer to have its documents in unbound form, may do so by notifying the Superintendent of Documents to that effect prior to the convening of each Congress.

§ 719. Classification and numbering of publications ordered printed by Congress; designation of publications of departments; printing of committee hearings

Publications ordered printed by Congress, or either House, shall be in four series, namely:

one series of reports made by the committees of the Senate, to be known as Senate reports;

one series of reports made by the committees of the House of Representatives, to be known as House reports;

one series of documents other than reports of committees, the orders for printing which originate in the Senate, to be known as Senate documents, and

one series of documents other than committee reports, the orders for printing which originate in the House of Representatives, to be known as House documents.

The publications in each series shall be consecutively numbered, the numbers in each series continuing in unbroken se-

quence throughout the entire term of a Congress, but these provisions do not apply to the documents printed for the use of the Senate in executive session. Of the "usual number", the copies which are intended for distribution to State libraries and other designated depositories of annual or serial publications originating in or prepared by an executive department, bureau, office, commission, or board may not be numbered in the document or report series of either House of Congress, but shall be designated by title and bound as provided by section 738 of this title; and the departmental edition, if any, shall be printed concurrently with the "usual number". Hearings of committees may be printed as congressional documents only when specifically ordered by Congress or either House.

## § 738. Binding of publications for distribution to libraries

The Public Printer shall supply the Superintendent of Documents with sufficient copies of publications distributed in unbound form to be bound and distributed to the State libraries and other designated depositories for their permanent files. Every publication of sufficient size on any one subject shall be bound separately and receive the title suggested by the subject of the volume and the others shall be distributed in unbound form as soon as printed. The library edition as well as all other bound sets of congressional numbered documents and reports shall be arranged in volumes and bound in the manner directed by the Joint Committee on Printing.

## Chapter 9—CONGRESSIONAL RECORD

§ 906. Congressional Record gratuitous copies; delivery; subscriptions

The Public Printer shall furnish the Congressional Record only as follows:

\* \* \* \* \*

to the Superintendent of Documents, as many daily and bound copies as may be required for distribution to depository libraries.

\* \* \* \* \*

## Chapter 17—DISTRIBUTION AND SALE OF PUBLIC DOCUMENTS

§ 1710. Index of documents; number and distribution

The Superintendent of Documents, at the close of each regular session of Congress, shall prepare and publish a comprehensive index of public documents, upon a plan approved by the Joint Committee on Printing. The Public Printer shall, immediately upon its publication, deliver to him a copy of every document printed by the Government Printing Office. The head of each executive department, independent agency and establishment of the Government shall deliver to him a copy of every document issued or published by the department, bureau, or office not confidential in character. He shall also prepare and print in one volume a consolidated index of Congressional documents, and shall index single volumes of documents as the Joint Committee on Printing directs. Two thousand copies each of the comprehensive index and of the consolidated index shall be printed and bound in addition to the usual number, two hundred for the Senate, eight hundred for the House of Representatives and one thousand for distribution by the Superintendent of Documents. (Pub. L. 90-620, Oct. 22, 1968, 82 Stat. 1280.)

§ 1711. Catalog of Government publications

On the first day of each month the Superintendent of Documents shall prepare a catalog of Government publications which shall show the documents printed during the preceding month, where obtainable, and the price. Two thousand copies of the catalog shall be printed in pamphlet form for distribution. (Pub. L. 90-620, Oct. 22, 1968, 82 Stat. 1280.)
